

Aadith's Story

First Floridian to win the 22-year history of the National Geography Bee and National Geographic Bee

--acquired an interest in geography on trips with his family to Australia and France

--Aadith initially wrote down 50 questions a day, then to 20 questions daily in prep for the state

--for four months (after receiving our books in February) he studied 20 new facts each day

--his history teacher sent questions to other teachers each day, those teachers in turn would quiz him throughout the day to reinforce the information

--after the National Geographic Bee, Subramaniam Moorthy called Global Press, Inc. and informed us that two of the finals questions were in our books
